Hi Dawn,

I left you a voice mail message. Can you please call me when you get a chance in reference to your email below.

Subject: New Signs Cypress Lakes Community

Dear Kobie,

I am a city employee as well as a homeowner in Cypress Lakes Community. Our HOA President installed the 4 signs overnight on Sunday, March 1. I am inquiring if the 4 new signs installed at the 2 entrances are in compliance with City of Coral Springs Code.

It is my understanding they are installed on the street swells owned by the city. The height of the signage is also in question as to code compliance.

Are you able check if the signs can/must be removed or are they allowed to stay? Plenty of the homeowners wish for them to be removed.

Picture below of 1 of the signs.

Thank you in advance.
